From the Principal

School overview

Emerald State School is one of the most highly regarded schools in the Emerald area. We proudly provide an educational service from Prep to Year 6. Our enduring and strong reputation for excellence is well recognised in the local and broader community. Our students, staff and parents are proud to contribute to the success of our progressive, dynamic school. We place a strong, united emphasis on nurturing traditional values alongside 21st century pedagogy. Our school has an established vision statement "Striving to Succeed" and with our three school rules of being a safe responsible learner are incorporated into the curriculum and values program to position Emerald State School students and staff to be life-long learners with the skills and attributes we value now and in the future. Our school curriculum program is rich and deep and Emerald State students enjoy a broad range of curriculum experiences in the academic, social, cultural and sporting arenas.

Emerald State School staff members are passionate about the role information and communication technologies play in engaging today's learners. Our parent community, through our P & C, support this initiative through funding every year of computers, iPads and other resources. Our school provides opportunities for children to develop their talents in the arts through junior and senior choir, instrumental music program and Eisteddfod participation (choirs, band, verse speaking and folk groups). Our school has very proud sporting representation through local, regional and state-wide competitions. Our school also participates in the Inter school Touch, Netball and Debating competitions run after school in term 2,3 and 4. Students' social and emotional skills and well-being are fostered through our Positive Behaviour for Learning framework and our focus on resilience. Emerald State School has a very active and supportive school community which is integral to the opportunities available to, and success of, our students.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community. Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	62,208	97,599	155,686
Water (kL)	8,761	6,867	3,426

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.
